

Autumn Green at Midway Village

Autumn Green Midway Village, in Chicago, Illinois, staff and residents were honored to participate in a meal program at Ronald McDonald House (RMH) in Oak Lawn, Illinois. RMH provides a home away from home to families whose children are in the hospital receiving medical treatment. The house provides a room for families to stay, offers meals and most of all, support for the guests in the house. RMH looks for volunteers to provide and serve lunch or dinner on a daily basis to their guests.

Autumn Green at Midway Village helped to fulfill this need by providing and serving lunch to RMH guests at the end of October, 2009. They gathered a few eager resident volunteers who were assisted by Autumn Green's Executive Chef William Grasse, Business Office Manager Daniele Mitchell and Program Director Kimberly Hernandez. It was a great experience for all involved and those who were served appreciated not only the fantastic meal Chef Grasse and his team had prepared but our companionship as well. The residents are eager to return to RMH and enjoyed their service to the families. It was amazing to see how the residents had pulled together as a team and how they went above and beyond just serving a meal. They interacted with the guests in the house with ease and the families were touched by their interactions with the residents. The staff and residents of Autumn Green plan on returning to the Ronald McDonald House on a regular basis.
