

RENOVATION COMING SOON!!

We are excited to announce that Garden Estates of Tyler Texas is getting an interior update! The renovation will include new furniture, artwork and a bathroom renovation. The images shown here are inspirational and represent the aesthetic that we will be bringing to the community. The designers will use this inspiration to guide the overall design for the coming renovation.

Inspired by the region’s stunning landscape and celebrated rose and garden traditions, integrating with the rich agricultural history and famed East Texas charm, the design creates a reimagined transitional farmhouse layered with details and warmth. The local piney woods and big sky sunsets brings in greens, gold and rusts, while pops of bright floral colors reference the local landscape. Natural wood, painted trim and bright materials reflect southern charm. Thoughtfully crafted for relaxation and comfort, welcoming spaces will invite residents and guests to sit a spell, share a story and enjoy the community.
