

INTERIOR RENOVATION COMING SOON!!

We are excited to announce that we are bringing a renovation to Bayshore Memory Care! The images shown here are inspirational and represent the design aesthetic that we will be bringing into the community. The designers use this inspiration to guide the new look and feel for the renovation.

The design at Bayshore marries the beauty of the natural environment with the iconic Italianate architecture specific to this community. Shades of blue, cream, and green reference the sparkling water, white sand beaches, and dense forests of cypress trees. The pops of vibrant color bring to mind the rich Spanish influence, as well as the abundant nature and wildlife found in the gardens and beaches local to the Gulf Coast. The curves and detailing in the furnishings take cues from the historic downtown, and seek to honor the history and beauty of Naples - both past and present.
