

## *Breathe easy.*

All day, every day our air purification system (Needlepoint Bipolar Ionization from Global Plasma Solutions) keeps the air clean by removing airborne undesirables such as norovirus, MRSA and SARS-CoV-2 – **the virus that causes COVID-19.**

This is an advanced, sophisticated technology that plays a big role in keeping residents, staff and visitors safe. And that's why we use it. Having safe, purified air circulating throughout the comfortable common spaces where residents enjoy their meals and participate in various activities offers peace of mind, enables more interaction and sparks deeper connection.

We would love to hear from you! To learn more about what we are doing to keep our residents, staff, and guests safe, please call or fill out a contact form from our website.

**SENIOR LIFESTYLE IS  
HIGHEST RANKED IN  
CUSTOMER SATISFACTION**  
*with Assisted Living/  
Memory Care Communities*

Tied in 2020. For J.D. Power 2020 award information, visit [jdpower.com/awards](https://www.jdpower.com/awards)
